

TRAINING WITH CLARKSTON IACET CEU'S FAQ'S

Q: What does it mean to be an “authorized provider” of IACET CEUs?

A: Clarkston underwent a robust application process that included an evaluation by the IACET of Clarkston’s training design, development, and delivery practices, an onsite visit, and adherence to the IACET criteria. As a result, Clarkston received authorized provider status in May 2019.

Q: What are the benefits to learners that earn IACET CEUs?

A: Continuing education is a requirement for professionals in certain fields to maintain professional certification, memberships, or licensing in their field. Clarkston’s training programs allow you to achieve high-quality continuous education that is recognized by professional organizations. Many organizations convert CEUs to PDHs, CPC, CECs, or other units of measurement. Some higher education institutions will accept CEUs. Please check their pages for the specific acceptance and/or conversion ratios.

Q: What constitutes one CEU?

A: One CEU equals ten (10) contact hours of participation in an organized learning event conducted by a qualified instructor.
